Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 6) ☐ Other: ____.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U. S. C. 121:
 - I. Claims 1-20 and 26-40, drawn to a method of treating bacteremia or sepsis, or of decreasing mortality of a subject having bacteremia or sepsis, comprising administering a lactoferrin composition, classified in class 514, subclass 6, and class 424, subclass 9.1.
 - II. Claims 21-24, drawn to a method of treating bacteremia, comprising administering a lactoferrin composition and a metal chelator, classified in class 514, subclass 6, and class 424, subclass 9.1.
 - III. Claims 25, 41 and 42, drawn to a method of treating bacteremia, or of decreasing mortality of a subject having sepsis, comprising administering a lactoferrin composition in combination with an antibiotic, classified in class 514, subclasses 6 and 199, and class 424, subclass 9.1.
 - IV. Claims 43-44, drawn to a method of decreasing mortality of a subject having Acute Lung Injury (ALI) or Acute Respiratory Distress Syndrome (ARDS), comprising administering a lactoferrin composition optionally in combination with low tidal volume ventilation or a surfactant, classified in class 514, subclasses 6, and class 424, subclass 9.1.
2. The inventions are distinct, each from the other because of the following reasons:

The methods of Inventions I-IV are distinct from each other because they have different method steps, use different materials, and have different outcomes in treating bacteremia, sepsis, or ALI or ARDS, e.g., the claims of Group I use a lactoferrin composition in treating bacteremia or sepsis, while the claims of Group II use a lactoferrin composition and a metal chelator in

Art Unit: 1653

treating bacteremia, the claims of Group III use a lactoferrin composition in combination with an antibiotic in treating bacteremia, and the claims of Group IV use a lactoferrin composition optionally in combination with low tidal volume ventilation or a surfactant in treating ALI or ARDS.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications and recognized divergent subject matter, and because inventions I-IV require different searches but are not co-extensive, examination of these distinct inventions would pose a serious burden on the examiner and therefore restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
